Where tech and text converge
Online. On paper. Gotcha covered.

4 money-saving steps to your first draft ...

... of just about anything! 😊

STEP 1

Create and self-edit your project.

STEP 2

Ask a friend (who has **not** seen your work) to:

- Tell you if it doesn't reach your target audience.
- Alert you to confusing items.
- Point out problems: links, navigation, grammar, wrong words, etc.

STEP 3

Incorporate the suggested changes you want to keep.

STEP 4

Repeat #2 and #3 with another friend, **using the updated project.**

YOU DID IT!

Send it to your professional editor!

FOLLOW THESE 4 SIMPLE STEPS TO
SAVE BIG $$$ WITH YOUR PROJECTS
